	APPROVAL OF STATE ENGIN	VEER .	
	This is to certify that I have examined the foregoing application, and dowing limitations and conditions:	o hereby grant the same, subject to the	
	no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is restricted to 137.87 acres within the place of use. The remaining 40 acres described under this permit shall not be invagated from any source.		
	amount of water to be changed shall be limited to the amount which can	,	
ехсе	pedcubic feet per second and		
	of 3.6 acre-feet per acre of land irrigated from any	and/or all sources.	
Wor	k must be prosecuted with reasonable diligence and be completed on or bef	October 30, 1995	
Proc	of of completion of work shall be filed before	₹November: 30,_1995	
App	lication of water to beneficial use shall be made on or before	October 30, 1996	
Proc	of of the application of water to beneficial use shall be filed on or before	November 30, 1996	
Map	in support of proof of beneficial use shall be filed on or before	November 30, 1996
